

Calculation length of the piston L [m]
 (For 28 m higher travels to consult Our technical Office)

The numbers on the curves are representative of the MPa pressure corresponding to the weight in the piston.

**DIAGRAM EN 81.2 COEFFICIENT 1.4
 TELESCOPIC PISTONS FOUR EXTENSIONS
 TYPE 100/4 - 125/4 - 140/4 - 162/4**
